## A FIGHT PROMISED.

The Rich Divorce Case Likely to be Reopened in the Circuit Court.

A Skating Rink Marriage Alred Before Judge Bennett this Morning.

Francis E. Rich presented an affidavit to Judge Bennett this morning setting forth reasons why the divorce case in which she was defendant should be reopened.

She claims that at the time the decree of divorce was granted she was ignorant of her legal rights and was without proper representation.

Judge Bennett, after hearing the affidavit, made out an order to the plaintiff, E. A. Rich to show cause why the case should not be given another hearing. Arguments on the order have been deferred two weeks.

Another divorce matter before the court today was that of Josephine Stanborough, of this city, against Frank Stanborough.

Stanborough, whose real name is Jones, became acquainted with his present wife, then Miss Evanson, at the rink. He claimed to be a wealthy commercial traveler from New York and won the young lady's heart completely. The two were married within three weeks of their first meeting. Their married life, however, was of short duration, for Stanborough was found to be a mere pretender, having only the income of an itinerant peddler.

## BRIEF FACTS.

—Writing school.

—Wrecked shade trees are plenty.

—Patti Ross this evening at the opera house.

—A number of Janesville people will visit Chicago during the Booth-Barrett engagement.

—The picture-gallery grab-bag affair was running again today.

—Several Janesville lawyers are at Elkhorn taking testimony in the Anderson-Libbman case.

—Worth remembering. You can greatly improve your writing by attending the "writing school."

—Regular meeting of the common council this evening—provided a quorum puts in an appearance by 7:30 o'clock.

—That was a very heavy rain storm that visited this section of country between four and five o'clock last evening.

—Molesters, who were sent to Waukegan for assaulting an aged woman in the fifth ward, is reported by recent visitors to be fat and happy.

—Crystal Temple of Honor No. 32 assembled in regular weekly session this evening—lodge room in the Jud block, North Main street.

—Mr. Wilder was quite ill yesterday and is still confined to his room. He hopes to be all right by the time the council convenes.

—An entertainment of the Court Street Literary club will be given on Friday evening of next week. It will be the first since last season.

—Oakshook Congregationalists cleared about one hundred dollars by presenting the play of "Pygmalion and Galatea" at the local opera house Saturday.

—Messrs. Matthews & Ryan, proprietors of the restaurant on West Milwaukee street, next to Ashcraft's furniture store, have dissolved partnership.

—The funeral of the late David Kirkwood will be held from the residence of John Kirk, South River street, at two o'clock to-morrow afternoon.

—A little over half the water pipe is now laid, and the contractors are very sanguine of their ability to complete the contract this fall before cold weather sets in.

—Miss Etta Hanabett entertained a company of between twenty-five and thirty young friends at the home of her parents in the fourth ward Saturday evening.

—Mrs. Stacy's bible reading was well attended last evening considering the weather. Those who have heard her often pronounce last night's effort one of her very best.

—S. C. Chase's puzzle is attracting more attention than the 18-14-15 puzzle ever did. Two or three answers have already been received and more are coming in every day.

—Mrs. E. P. Stacy, the eloquent bible reader, interested the pupils at the Institution for the Education of the Blind and a number of citizens, at the state building yesterday afternoon.

—To-night occurs the regular monthly meeting of the Business Men's Association. Important business is to come before this meeting and it is requested that there be a full attendance of members.

—The home of Mr. and Mrs. Chas. Alwood, South Jackson street, was made to echo the voice of a newborn son yesterday afternoon, the little stranger being the fourth son of the proud sire. The stork cars are all running on time today.

—Will the person who has the cardinal handkerchief case in their possession, and who took the same from the domestic hall at the county fair, return the same to Secretary Helmsstreet, soon, or proper steps will be taken to procure the same.

—The Chicago News of to-day, published a portrait representing Major Geo. M. Randall, U. S. A., of this city. But very few would recognize the picture. The major is in command of a battalion of regulars at the Chicago military encampment.

—Cards have been received in the city announcing the marriage of Miss Libbie Cornish, a former resident of the second ward, to Mr. F. G. Hyde. The ceremony took place Wednesday afternoon of last week at Evansville, Indiana. Mr. and Mrs. Hyde will make their home at Oakland, Maryland.

—The installation council will meet at the Congregational church to-morrow afternoon at two o'clock. In the evening, beginning at 7:30 o'clock, the public installation exercises will occur. The public is cordially invited to attend both in the afternoon and evening. We shall publish a programme of the evening exercises to-morrow.

## AN OPEN SWITCH.

Causes a Wreck of a Portion of the South Bound Green Bay Express.

Killing of Fireman David Kirkwood, of this City, at Cary Station.

On Saturday afternoon at 3:50 o'clock, as the south bound Green Bay express on the Chicago and Northwestern railway, reached Cary Station, Illinois, the engine struck a misplaced or open switch, which caused the engine and train to take a side track upon which were several loaded freight cars.

Engineer A. R. Sellock and Fireman David Kirkwood, both of this city, were on the engine in charge of the same. After taking the side track Engineer Sellock saw it was too late to avoid a wreck, and did what he could to stop his train.

Fireman David Kirkwood undertook to jump from the engine, but in doing so was caught between the water tank and cab of the engine and was fatally crushed.

Mr. Sellock remained at his post and escaped without injuries. Mr. Kirkwood received his fatal injuries as the engine struck the freight cars. His left leg was severed at the hip, and was only held to the body by a very small piece of skin. He also had a dislocation of the left hip and severe bruises about the head. Immediately at the request of the unfortunate man, Dr. Palmer of this city was telegraphed for, but on his arrival at Kishwaukee, two stations this side of Cary, Dr. Palmer learned that Kirkwood had died at 9:30 o'clock, and he returned home. Mr. Kirkwood is said to have remained conscious to the last. As he breathed his last he exclaimed, "I am going." His remains were brought to this city Sunday morning on the St. Paul express, accompanied by Engineer Sellock, who immediately returned to Chicago. On arriving here the remains were taken to the residence of Mr. John Kirk, South River street, at whose residence deceased made his home in Janesville. The only relatives of the deceased in this country are a brother and three sisters residing at Sictoria Harbor, Ontario.

The blame for the accident is laid to the carelessness of the section men, who were doing something with the switch at the time, and were standing in such a position as the train approached the station that Engineer Sellock could not see that anything was the matter. A coroner's jury was summoned, and after viewing the remains an adjournment was taken until two o'clock this afternoon at Cary.

Mr. Kirkwood was a member of Janesville Lodge No. 55, F. and A. M., of this city, a delegation of the lodge received the remains at the depot on Sunday morning, conveying them to the residence of Mr. Kirk. The funeral will be held from Mr. Kirk's residence at two o'clock to-morrow afternoon, and will be in charge of the Masonic order.

Deceased was also a member of the Brotherhood of Locomotive Firemen, in which order he held an insurance policy of \$1,500.

He was one of the oldest firemen in the employ of the Northwestern railway, never asking for promotion. He was about 40 years of age, and unmarried. He had many friends in Janesville.

## FOR MISCHIEVOUS BOYS.

Timely Warning for Unruly and Mischievous Children.

Within a day or two the mail boxes will be placed in different locations throughout the three-quarter mile limit for the reception of U. S. mail matter. A little advice to those mischievous persons inclined to molest letter boxes, or to disturb them at all, will not be out of place at this time. The laws of the United States are very severe with persons tampering with mail boxes, and when Uncle Sam "gets after" offenders he seldom "lets up" until the unruly are brought to justice. Parents should impress this fact upon the minds of their children for the penalty is severe. Section 3889 reads as follows: "Every person who willfully and maliciously injures, tears down, or destroys any letter box, pillar box, or other receptacle established by the postmaster general for the safe deposit of matter for the mail, or for delivery, shall, for every such offense be punished by a fine of not less than one hundred dollars and not more than one thousand dollars, or by imprisonment for not less than one year and not more than three years."

In a few weeks the fire alarm boxes will be in place, also, when the common council will have to enact some very severe ordinance in order to protect the boxes, as well as to prevent the sending in of false alarms of fire. These are some points which the unruly will profit by heeding. They are laws which are to be obeyed, and by all.

OFF FOR CHICAGO.

The Guards start for the international encampment.

Twenty-one men in the uniform of the Guards filed aboard the 9:45 train for Chicago this morning.

The company occupied most of one car, but their baggage took up more room than they did considerably. It was a soul-stirring and picturesque lot. Each man had a bundle of his own. The bundles ranged in size from the four-story-and-basement trunk of Sergeant J. B. Whiting, to the paper-fall of camp furniture carried by Fred Schaller, under in shape they varied from the neatly tied box of Lieutenant Frink to Otis Brand's bundle of canned fruit, artichokes, clout-potter and other hospital supplies that seemed anxious all the time to slide through their covering of bed quilt and get into the open air.

The master roll of the party, which really was made up from the Rites as well as from the Guards, is as follows: Captain—M. A. Newman.

First Lieutenant—Jerry Frink.

Orderly Sergeant—J. B. Whiting, Jr.

Privates—Barnd, Bowerman, Palmer, Brand, Babrecht, Koschlin, Spalding, Bump, Brown, Root, Wheeler, McGowan, Schaller, Butler, Richardson, Cornigan, Detmer and Parle.

The company will remain in camp at Chicago until Thursday morning. Thursday they will leave for Milwaukee and will take part in President Cleveland's reception, returning to Janesville Thursday night.

A merchant down town sells more of Dr. Bull's Cough Syrup than all other remedies put together. It surely must be the best remedy for a cough, cold, and other similar affections. Price 25 cents.

PATTI ROSS.

The bright little comedienne who will appear at Myers opera house to-night is spoken of by the Louisville Commercial as follows:

Fred Marsden's delightful comedy-drama of "Bob," was charmingly presented last night by Patti Ross and her company. Patti Ross has been appropriately titled "The Little Sparkle of Sunshine." A bewitching face and a frolicsome little figure, embodying mirth and music and irresistible "outness," has seldom, if ever seen upon the stage. There is a world of sweetness and frolic in her every intonation and motion, and when these are merged into a voice of exceptional melody and expression the audience is more than charmed with little sobriety. Miss Ross has appeared previously before a Louisville audience, but never as a star. Having for the first time presented herself as a candidate for popular favor, it requires no prophetic vision to see that from this out she is sure to be little, if any, less to us than Lotta has so long been. The selection of a play for her first appearance is a most happy one. In the title role she has full scope for all her powers and right well she improves every opportunity presented. Her performance at every point was enthusiastically applauded, and when she sang, it appeared that no number of encores would satisfy her hearers. In the latter particular it must be said that her rendition of the original song, "My Caroline," was sung and sung to a degree of enthusiasm that knew no bounds.

For the President's Visit.

The Chicago and Northwestern Railway Co. will sell excursion tickets to Milwaukee and return, and to Madison and return at very low rates. For information regarding rates, dates of sale, etc., apply to agents C. & N. W. R. Y. Co.

SPECIAL COMMUNICATION.

The members of Janesville Lodge No. 55, F. and A. M., are hereby requested to assemble at Masonic hall to-morrow afternoon at 1:15 o'clock, sharp, for the purpose of making arrangements to attend the funeral of our late brother, David Kirkwood. All members of the order in the city are respectfully invited to attend also.

## IN THE CHURCHES.

A Class of Two Hundred Young People Confirmed by Archbishop Heiss.

St. Patrick's and St. Mary's Churches Both Crowded—Other Church News.

Seventy-two young people each holding a wax taper marched slowly down the aisles of St. Mary's church yesterday. Behind these candidates were Father Roche and Dean McGinnity of this city, the Rev. H. J. Roche, of Columbus, the Rev. Father Riley, of Lake Geneva, Chas. Leisinger, of Milwaukee, and last of all, the Most Reverend Archbishop Heiss.

The announcement that it was Confirmation Sunday had filled every seat in the church. Services began at half-past ten. Mass was said by Father Leisinger, and a strong address on confirmation and its effects was made by Father H. J. Roche. The confirmation services, which came last, were conducted by the Archbishop himself. And at three o'clock he conducted the same service at St. Patrick's church. There the class consisted of one hundred and forty-one members.

At both churches the singing was especially fine. J. M. Kneff was in charge at St. Patrick's, and J. H. Burns at St. Mary's, and each of the choir was strengthened in honor of the occasion.

OTHER SERVICES.

At the Baptist church in the evening there was a special service in the interest of missions. The principal feature of the service was the "Colony of Nations." In this six young ladies appeared in costume, representing America, India, Africa, China, Japan and Mexico, and reciting the good done in these countries by religion.

The pastor of Court Street church delivered a very excellent sermon in the morning on "Contentment and how to obtain it." In the evening he gave the second lecture on Solomon's Temple.

Mr. St. John was assisted in the song service by Messrs. Kimberly, Bennett and Hayden, and the music was particularly fine. Both Mr. Peske and Mr. Walker start for the annual conference at Appleton to-morrow.

Mrs. F. B. Stacey's bible reading at the Congregational church was not as well attended as was expected, many being kept away by the storm. Those that were present were, however, fully repaid for their trouble. The service was unusually interesting. Mrs. Stacy gains new friends whenever she visits the city and this has been no exception.

Professor H. D. Maxon's sermon at All Souls' church yesterday, was a very strong one. Taking for his subject the query: "Are you a Christian?" he delivered a discourse that contained many excellent thoughts.

WORK OF INVENTORS.

An automatic meter for registering the inequalities of the earth's surface has been invented by a Frenchman. It is carried about in a vehicle, passing over the land of which a plan is desired.

A new style of car wheel has been patented by a Milwaukee (Alch) inventor, which has a combination of separated disks between the ring and the hub composed of alternating layers of wood and metal, and held together by a single bolt and the other provided with an integral bored head and wrench-seat.

A Canadian woman has invented a method of making this into a merchandise material. The machine in question grates and lifts the thickened, causing them to spread out into a flat which may be shaved to imitate plush or left natural. This material in its natural state resembles raw wool, but when treated with water, it becomes a soft, warm, and comfortable material.

A new alloy has recently been discovered which is said to resist the attacks of most acids and alkaline solutions. Its composition is as follows: Copper, 15 parts; iron, 10 parts; lead, 1.25 parts; antimony, 1 part. The alloy is, therefore, a bronze with an addition of lead and antimony. It can be advantageously used, the inventor claims, to replace vessels or fittings of bronze, vulcanite or porcelain.

A mechanical apparatus for blowing glass bottles, which displaces the old mouth-blowing process, has been invented by an Irishman, and an Irish syndicate has been organized for its introduction. Hitherto it has been considered impossible to improve upon the human lungs, and so the glass-blowers of the world have gone on puffing themselves away at forty-yearly intervals, which is the low average of life among these handicraftsmen. The new invention dispenses entirely with the human lungs, and injects the air into the molten glass by an air pump not unlike an ordinary syringe in shape and action.

A man in Iowa has spent fourteen years in solving the problem of boring a square hole, and he has succeeded. A company is organized to put his invention on the market. It is simply an excellent head with chisel edges and projecting lips which cut out the corners in advance of the chisel. The balance of the machine is an almost exact counterpart of the old-fashioned boring machine, and it will cut a square hole in four minutes, and doing it with perfect accuracy, that a carpenter can not possibly complete in less than half an hour.

An engine which gives promise of materially affecting the use of steam has been recently introduced in Connecticut. The first engine made is 5 1/2 horsepower. It gives ten horse power by the Emerson power scale, and has been running the shop for three months with a 3 1/2 horse power boiler, from four to six revolutions per minute, at a very low or very high speed, ranging from 200 to 1,200 revolutions per minute, but gives the best results at a medium speed of 100 revolutions. The engine consists of only three pieces of cast iron, inside of a closed case, and has a crank 1 1/2 inches for five horse and 3 1/2 for ten horse power. There is no limit to the speed and power of the engine, and it can be applied to railroad locomotives as well as to stationary power.
